# COMMUNITY EDUCATION GRANTS SCHEME Guidelines for Applicants

### Promoting low-cost, locally-based community education

# Guidelines for Applicants – Please read carefully before completing the Application Form.

### **DEFINITION OF COMMUNITY EDUCATION**

"Community Education is education and learning which is rooted in a process of empowerment, social justice, change, challenge, respect and collective consciousness. It is within the community and of the community, reflecting the developing needs of individuals and their locale. It builds the capacity of local communities to engage in developing responses to educational and structural disadvantage and to take part in decision-making and policy formation within the community. It is distinct from general adult education provision, due to both its ethos and to the methodologies it employs."

Aontas, 2004, p.18, Community Education 2004
